

Rahul Kumar Rana

FULL STACK WEB DEVELOPER

9102129030 | rsharma38045@gmail.com | Bokaro / Jharkhand
Portfolio: Rahuluf | Profile: rahul-rana-154060220

PROFESSIONAL SUMMARY

Full Stack Web Developer with professional experience at Global Pixel IT Services and hands-on experience building responsive, database-driven web applications. Skilled in HTML5, CSS3, JavaScript, React, Python, Django, Node.js, Express.js, MongoDB, SQLite and Git. Experienced in developing complete web workflows, form handling, database integration and email communication. Currently expanding into APIs, Machine Learning, Deep Learning, LLMs, RAG, Vector Databases and Voice AI.

PROFESSIONAL EXPERIENCE

Web Developer — Global Pixel IT Services	Present
• Work on web development tasks involving responsive interfaces, website updates and practical frontend/backend implementation. • Build and maintain web pages with attention to usability, responsive design and clean code. • Work with modern web technologies and continuously improve development workflows through hands-on projects. • Collaborate on client-oriented website requirements and translate functional requirements into web solutions.	

TECHNICAL SKILLS

Frontend	HTML5 • CSS3 • JavaScript • React.js • Responsive Web Design
Backend	Python • Django • Node.js • Express.js • REST APIs
Database	MongoDB • SQLite • SQL • Django ORM
Tools	Git • GitHub • VS Code • Virtual Environments • Command Line
AI / Learning	Generative AI • Machine Learning fundamentals • Deep Learning • PyTorch • LLMs • Transformers • RAG • Vector Databases • Voice AI

SELECTED PROJECTS

Django Full Stack Portfolio & Contact Management System

Tech: Python • Django • HTML5 • CSS3 • JavaScript • SQLite • Gmail SMTP

- Developed a responsive personal portfolio with structured sections for introduction, skills, projects and contact.
- Built a Django-powered contact form that stores visitor enquiries in a database and makes them manageable through Django Admin.
- Integrated Gmail SMTP for automatic contact notifications and configured Reply-To for direct visitor responses.
- Implemented a secure environment-based email configuration using a Gmail App Password.

Responsive Business Website Development

Tech: HTML5 • CSS3 • JavaScript • Responsive Web Design

- Create responsive website interfaces designed to work across desktop, tablet and mobile devices.
- Structure reusable sections and clear navigation to improve usability and presentation.
- Focus on clean layouts, readable content, consistent styling and practical user journeys.

Python & Django Web Application Development

Tech: Python • Django • SQLite • Django ORM

- Build backend-driven applications using Django models, views, templates and URL routing.
- Work with database-backed forms and CRUD-oriented application workflows.
- Use Django Admin and ORM features to manage application data efficiently.

EDUCATION

Full Stack Web Developer Masai Institute	January 2024 – Present
BA S.S. College	September 2021 – August 2024

CURRENT DEVELOPMENT ROADMAP

- Phase 1 — Strengthen Python, Git/GitHub, APIs and Django/FastAPI.
- Phase 2 — Learn Machine Learning basics, Deep Learning and PyTorch.
- Phase 3 — Understand LLMs, Transformers, RAG and Vector Databases.
- Phase 4 — Build Voice AI with Speech-to-Text, Text-to-Speech and real-time conversation.
- Phase 5 — Launch and deploy a personal AI application.

SOFT SKILLS

Teamwork	Problem Solving	Time Management	Continuous Learning
